

**McGRORY GLASS**

---

## **McGrory Glass Architectural/Interiors Presentation**

Our presentation will focus on the Architectural Glass Products below and the processing/fabrication of these products. We will also discuss the suitability of these products for Interior/exterior and safety applications.

- **Acid Etch Glass:** Colors, Patterns and sizes
- **Pattern Glass:** Type, Size and Product Limitations
- **Back-coated Glass:** Colors, Installation, Applications and Warranty
- **Laminated Glass:** Colors, Films, Digital Imagery, Flooring applications
- **Luxar Anti-Reflective Glass:** Description and Applications
- **Fire-Rated Glass & Glazing:** (Brief Discussion) - A separate Presentation with AIA/CES Credits is available
- **X-Ray / radiation Shielding Glass:** If Applicable
- **Fabrication/Processing:** Tempering, Drilling, edgework, laminating

We look forward to providing your firm with valuable information on the various types of Products and Services available to the Architectural and Design Industry.
